## Physical/Occupational Therapy Prescription

Name:		Date of Bir	th:	
Diagnosis: _	Shoulder pain	Code:	M25.519	

## Instructions:

- Muscles to focus upon: Rhomboids, Trapezius, Levator, and Serratus Anterior.
- Phase I:
  - o Goals: Initiate voluntary control, re-establish balance, and normalize mobility.
  - o Incorporate postural education.
  - o Suggested exercises:
    - Prone horizontal abduction in neutral rotation and external rotation
    - Supine Serratus Anterior punches
    - Standing scapular retractions against resistance bands
    - Standing table lifts with scapular retraction
    - Push-ups onto the wall
    - Sidelying neuromuscular control drill (with resistance)
    - Prone rowing with dumbbells
    - Pectoralis minor and posterior capsular stretching
    - Adducted and abducted internal and external rotational strengthening.
    - Core strengthening (planks) if shoulder is pain free during these exercises.
- Phase II:
  - o Goals: Improve balance, enhance stabilize, improve proprioception
  - Suggested exercises:
    - Pectoralis minor stretching
    - Prone rowing
    - Prone horizontal abduction on a ball in "I", "W", "T", and "Y" formations
    - Standing table lifts with retraction and external rotation
    - Push-ups onto a ball (table)
    - Push-ups onto two plyoballs onto the wall
    - Sidelying neuromuscular control drills with and without resistance
    - Core strengthening (planks)
- Please provide with a home exercise program to be performed throughout
- Progress as tolerated.

<u>Modalities</u>			
_x_ Electrical Stimulation	_x_ Heat	_x_ lce	x_ Per therapist
Frequency: 2-3 times/week	Duration: 6 We	eeks
